

Experience Title: **Earth's co-ordinates**

Year/ Class: 5/6 - Oak

Start Date: 7th January, 2019

**1-2
Weeks**

Main Subject focus:

Geography

Supported by this/these subject(s):

English

Maths

Discrete Subjects:

Guided Reading, Spelling, SPaG, Maths, RE, Music, PE, PSHE.

Rationale:

This is an opportunity for the children to learn about Longitude and Latitude, covering objectives as set out in the National Curriculum. This will include practical hands on experiences. This will be well matched to the learning style of many children in the class. The experiences will be applied to real life situations. The nature of this learning experience will also ensure that children are using many additional skills to help consolidate what they have previously learnt, for example, map reading.

Hook:

Geographical enquiry

Outcome:

Create a fact file

CORE VALUES:

Resilience	Aspiration
Collaboration	Respect
Honesty	Acceptance

How the Values will be fostered:

Resilience: fostered through learning new things and persevering with difficult theories.

Aspiration: children will aspire to become experts.

Collaboration: group work to share resources, draw conclusions and map read and find places around the world.

Celebrating success by:

Showing peers presentation of work

Community Links/ Visits/ Visitors:

Possible visit to Greenwich Maritime Museum

Parental support:

- Parents celebrate achievements.

Homework Project:

- Children to research topic as discussed in class.
