Staff Acceptable Use of Technology Policy

As a professional organisation with responsibility for safeguarding, all members of staff are expected to use Hollingbourne Primary IT systems in a professional, lawful, and ethical manner. To ensure that members of staff understand their professional responsibilities when using technology and provide appropriate curriculum opportunities for learners, they are asked to read and sign the staff Acceptable Use of Technology Policy (AUP).

Our AUP is not intended to unduly limit the ways in which members of staff teach or use technology professionally, or indeed how they use the internet personally, however the AUP will help ensure that all staff understand Hollingbourne Primary expectations regarding safe and responsible technology use and can manage the potential risks posed. The AUP will also help to ensure that school systems are protected from any accidental or deliberate misuse which could put the safety and security of our systems or members of the community at risk.

Template Acceptable Use Policy (AUP) for Remote Learning

This content can either be used to create a standalone AUP or can be integrated into existing documents according to setting preference.

These templates specifically address safer practice when running formal remote learning, including live streamed sessions, but can also apply to other online communication, such as remote parent meetings or pastoral activities. Settings should implement the approaches that best suit the needs of their community following appropriate discussions.

A remote learning AUP should be implemented following a thorough evaluation of remote learning tools with approval from leadership staff. We recommend settings use existing systems and/or education focused platforms where possible, and that staff only use approved accounts and services to communicate with learners and/or parents/carers.
